A decorative border of black and white line drawings of rose leaves and flowers surrounds the text. The drawings are scattered around the edges of the page, with some larger and more detailed than others. The roses are shown in various stages of bloom, with some fully open and others as buds. The leaves are depicted with prominent veins and serrated edges.

Our History

The Marlborough began life as a tea garden in 1826 before becoming the rose cottage hotel in 1838.

The rose cottage was favoured by the novelist William Thackeray who described it in 1844 as "one of the comfortablest, quietist, neatest little inns in England, and a thousand times preferable, in my opinion, to the star and garter.

The current name dates from 1874.
